

I'm Princess Olasimbo Somefun - Candidate for Internal Coordinator on team Speak Up! I'm a fourth year transfer student from the U.S. and I'm Nigerian-American, studying Political Science with a minor in Chinese. Like many students, I wasn't heavily involved in student life until last year, when I became the VP Communications for the African Student Association, and I want to continue to contribute to Concordia's community by being involved in student organizations. As Internal coordinator, I would create a student events calendar that showcases Concordia's wide variety of cultures and clubs. I am also passionate about making student government more visible and accessible to students, and helping them understand their stake in student government. As well, I want to put pressure on the university to introduce legislation improving sexual misconduct policies, with a focus on protecting students and survivors, and push Concordia to offer Canadian rates to students from all francophone nations, not just France. Personality wise, I'm very friendly, bubbly, and tenacious. Looking forward to getting to know all of you hopefully as my constituents!
